DETAILED ACTION

REASONS FOR ALLOWANCE

1. Claims 1-10 are found to be allowable.
2. The following is an examiner's statement of reasons for allowance:
3. The applicant has amended independent claim 1 to now require a pH range from 2-6 (support found on page 5 of the instant specification) and a new range for the amount of hydrofluoric acid (support found on page 15 table 1).
4. The prior art teaches composition which are alkaline ($\text{pH} > 7$) or contain a significantly lower amount of the hydrofluoric acid. The prior art further fail to provide sufficient motivation to modify the teaching to obtain these two newly added limitations. As such the claims are found to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory E. Webb whose telephone number is 571-272-1325. The examiner can normally be reached on 9:00-17:30 (m-f).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on 571-272-1498. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
